

University of Mount Union Became Future-ready with the Cloud

Alliance, Ohio | 4-year | Private | 2,200 students

The challenge

Familiar systems are not always comfortable ones.

University of Mount Union had been using their on-prem student information system since 1998. But with growing complexity, ballooning maintenance costs, and a clunky user experience, Mount Union needed a big change, fast.

The solution

Solutions built to evolve.

Ellucian Colleague (SaaS)
Ellucian Experience

The result

Investing in efficiency and long-term savings.

With Ellucian, Mount Union executed an entirely remote switch to SaaS-delivered Colleague, eliminating hosting expenses, freeing up IT staff time, and providing students and staff the intuitive, mobile-friendly experience they expect.

Impact

50%

reduction in grade input time for faculty

Increase

in IT staff availability

2,000

working hours saved annually

“There’s a future with Ellucian ... You’re focusing on big picture things that can revolutionize the way technology is used on campus.”

Mark Kolenz
Director of IT for Operations
University of Mount Union
